

INTEGRATION, COUNSELLING AND UPSKILLING OF MIGRANTS AND REFUGEES FROM LATIN AMERICA AND THE CARIBBEAN INTO THE LABOUR MARKET.

INTELAC MARKET MOVES FORWARD!

What have we done?

Within the framework of the InterLAC Market project, **the first result (PR1)** produced was a **comparative study** aimed at **diagnosing the situation regarding the socio-occupational integration of migrants and refugees from Latin American and Caribbean (LAC) countries in Spain, Italy, Belgium and Austria**. For this purpose, mixed methodologies have been used, collecting and analysing quantitative and qualitative data. The first part of the report identifies the **representation of non-European migrants in the countries under study**, and then focuses on the specific situation of Latin American migrants and refugees, analysing their demographic profile and relevant characteristics, as well as data concerning their inclusion in the labour market and education system.

In the second part of the report, a **qualitative analysis** was carried out to gain a better understanding of the demographic profile and the **main barriers that migrants and refugees from LAC countries experience in accessing employment**, with a special focus on the Spanish territory. Semi-structured interviews were conducted with academics, public employment services managers and socio-labour guidance technicians from third sector entities, as well as two focus groups with the target population in two autonomous communities in Spain: Andalusia and Asturias.

The **aim** of this report is to ensure that the planning of **the following interventions of the InterLAC Market project are relevant to the social reality** that each country analysed experiences in relation to **migrants and refugees from LAC countries**.

Partners

2ND TRANSNATIONAL MEETING IN CÓRDOBA!

On the 23th and 24th of March 2023, the Spanish partners from INDEPCIE welcomed all project partners in Córdoba for the second transnational meeting of the project. During these days, partners set the common ground and guidelines to move forward with the project in the most efficient way. Now that the first result has been finalised, the partnership is moving forward with the third (online survey to migrants and refugees) and fourth (online outreach campaign) results to both keep promoting the project and continuing to know the needs and experience of LAC migrants and refugees when integrating into the European labour market. Partners will meet again in June in Tarragona for the first Learning, Teaching and Training Activity. Stay Tuned!
